## OF INTEREST

### NATIONAL SAFETY MONTH

National Safety Month, observed annually in June, focuses on reducing leading causes of injury and death at work, in our communities, homes and on the road. Did you know that injuries are the leading cause of death for Americans ages 1 to 44 and are a leading cause of disability for people of all ages? Here are some of the top risks by age group: under 12 months - mechanical suffocation, age 1 to 24 - traffic crashes, age 25 to 64 - poisoning, age 65 and older - falls. There are many ways to prevent injuries and stay safe. How can YOU make a difference? Spread the word about ways to reduce risk of injuries and encourage communities, workplaces, families and individuals to identify and report safety hazards and learn more about important safety issues. About 18 women die every day from prescription painkiller overdoses, this is 4 times the amount in 1999. Texting or eating while driving are transportation issues. Almost 1 in 5 crashes (17%) that injure someone involve a distracted driver. For more information and ways to get involved in National Safety Month, please visit [www.nsc.org/act/events/Pages/national-safety-month.aspx](http://www.nsc.org/act/events/Pages/national-safety-month.aspx).

## Insider Guide to taking DART to the Airport

As summer travel plans take shape, keep in mind that DART connects you to our region's airports.

Since most trips can be completed within two hours, you'll only need a Two-Hour Pass to take DART to Dallas Love Field or the Dallas/Fort Worth International Airport. DART's Two-Hour Pass is just \$2.50 and there are discounted midday rates.

### Orange Line to DFW Airport

Travelers can start their journey at any DART light rail station and reach DFW Airport Terminal A via the Orange Line. From DFW Airport Station, passengers connect to the other four terminals via the Terminal Link bus shuttles outside of security or the SkyLink tram inside security.

### Dallas Love Field

Did you know DART has a bus that connects you to Dallas Love Field? It's called the Love Link Route 542 and it circulates between Dallas Love Field Airport and Inwood/Love Field Station.

The route features large buses to accommodate plenty of passengers and luggage. Improved signage at the rail station and airport, and a second bus stop near baggage claim, make riding the Love Link easier than ever.

Air travelers flying into Dallas Love Field now can plan ground travel before leaving the airport with a touchscreen kiosk. The kiosk offers trip-planning tools that include detailed travel directions for public transportation, cars, bicycling and walking. Texting and email options also are included for easy transfer to a mobile device.

### Enjoy Level Boarding

The center car of every DART Rail vehicle is a low-floor section that offers level boarding with the rail platform. DART's new fleet of buses also has low-floor sections and is equipped with ramps that deploy for level boarding from the curb.

### Plan Your Trip and Buy Your Ticket Before You Leave

The trains and buses operate daily from approximately 5am to midnight. DART Rail operates every 8-15 minutes during rush hours, 20 minutes during the midday and weekends, and 30 minutes late at night. In addition, service times and schedules vary on holidays. Additional route and fare information is available at [DART.org](http://DART.org).

### GoPass®

Whether you are traveling by rail, bus or both, DART's free GoPass® app is a great travel tool. You can purchase tickets on the app, and learn when the next bus or train will arrive or leave from any station.

The GoPass app can be downloaded from the App Store or Google Play store.

For schedule and fare information, please visit [DART.org](http://DART.org) or call DART Customer Service at 214-979-1111.

## Six Flags Over Texas

Arlington, Texas

<https://www.sixflags.com/overtexas>

The time has finally come! A new villain joined the other three villains to take over the park. Get ready for a roller coaster thrill ride centered around Batman's most iconic

nemesis, THE JOKER. And much like the comic book character himself, this one promises to be absolutely insane!

The Joker ride is being called a "free-fly coaster," which means that riders are able to spin and flip around, forward and backward, regardless of which direction the coaster is actually moving. And it does move in just about every direction. The attraction begins with a 90-degree elevator-style lift, 12 stories into the air, before rolling over hills and snaking around to the start. The experience lasts about one chaotic minute. The unpredictable nature of the flips ensures a unique ride every time for each person. The Joker is the 13th roller coaster at Six Flags Over Texas and, as expected, is located in the Gotham City portion of the park. **Contact your concierge for discount tickets!**
