

# METROPOLIS

## Our BeWell™ Promise

INVESTED IN THE HEALTH AND SAFETY OF OUR  
TENANTS, EMPLOYEES, AND VISITORS

As the owners of Bank of America Plaza, Metropolis is committed to the safety and wellness of our building communities including tenants, staff and visitors. This vital commitment is the cornerstone of our **BeWell™ Promise**. As a testament of our continued efforts to deliver best-in-class environments, Metropolis, together with our property management teams, partnered with Fitwel, UL and the US Green Building Council (USGBC), all of whom **independently validated** that the building's operational strategies are optimized to enhance building occupant health and wellness.

To start with, Bank of America Plaza received the **Fitwel certification for health and wellness strategies** that positively impact the health of our building's occupants. Fitwel is the world's leading certification system committed to building health and was created in part by the CDC.

Metropolis also collaborated with UL as an early adopter of their new voluntary program for real estate owners who want to demonstrate their commitment to delivering healthy indoor environments through an extensive process of indoor air testing and assessment. Bank of America Plaza proudly received the **UL Verified Healthy Building Marks for Indoor Air and Water** – another significant milestone in our **BeWell™ Promise**.

USGBC launched new LEED Safety First Credits in late 2020 as part of its Healthy Economy Strategy that addresses concerns related to the pandemic and building re-entry. Bank of America Plaza was one of the first commercial office buildings to proactively pursue these new credits and add to the existing LEED Gold certification. We are proud to announce that we earned the **Safety First Cleaning and Disinfecting credit** that validates that the janitorial best practices align with public health and industry guidelines for cleaning and disinfecting.

Through our BeWell™ Promise, Metropolis will continue focusing on the health, wellness, and sustainability of the workplace.

**BeWell™!**
